

Announcement regarding the hand out of new learning material for your child!

Dear parents,

on Monday, March 30th 2020, 8.00am – 4.00pm we will open our classrooms once again for you in order to pick up new learning material packages for your child.

Please note: Enter the schoolbuilding at the main entrance, leave the building at the exit through the north hall. Keep the safety distance of at least 2m to other persons!

In your child`s classroom at the table where you child uses to sit you will find a new package with learning materials. Furthermore you are kindly asked to take the instrument of your child with you (year 3 and 4) so that your child can rehearse the pieces it works on at school. In addition the JeKi-teachers have given small pieces to work on.

Some children still have got their PE-kit and other clothes in the entrance of the classes. Please take belongings of your child home for washing.

In exchange you might leave finished worksheets at school. Activity and exercise books that are still to be worked on at home of course have to be kept.

We hope very much that all pupils manage to keep on learning at home and we are glad to get a feed back from you. If the learning is too difficult don`t hesitate to contact staff and give them a ring. Your child can of course also ring a teacher or write an email.

We wish you and your children good health, patience, power and last but not least good mood!

Best wishes

Wiebke Jäger und Sylvia Hoyer
